Phil, one of the items for tonight is the scoreboard. The following is a cost breakdown reflecting quotes that I have received.

1. Electrical installation	\$5975.00
2. Cost of steel beams	\$3850.00
3. Contractor installing beams	\$3950.00
4. Concrete footings	\$1200.00
5. Placing scoreboard	\$2100.00
	<hr/>
	\$17,075.00

There will likely be an unknown cost pertaining to the actual start-up of the scoreboard. This is just a quick overview, I have detailed documentation that I will bring to the meeting.
