Subject: Re:

Whatever we do for Westridge Hills will be the standard for all subdivisions in the city.

I think the stop signs on the cul-de-sac are overkill.

If 3rd street and Savannah are considered minor collector streets then stop signs on the local streets accessing these streets may be acceptable, however we must then consider how this may apply city wide.

I believe that most of the traffic on these streets is the neighborhood residents and not through traffic. They should be respectful of their neighbors and understand rules of the road and speed limits. Poorly placed stop signs will not guarantee complete stops and this may give a false impression of safety.

Alan
