Response to Delano ?'s.
mch*

Notice should have gone out in the mail on Friday. Sorry if I failed to get back to you - I did speak with Sheriff Miller, and he confirmed that no changes would be needed to the law enforcement contract - also that no additional charges would apply.

My assumption is that if there have been any dangerous dog incidents in Delano in the past few years, it has probably been handled by Crossroads Animal Shelter under the contract we have with them. This will continue, even if you are not able to get back to us until after the March 1 effective date.

If we do have any incidents in the meantime and you want to be notified, just let me know that.

Brian

My city attorney is nervous.

Have you sent out the letter regarding the adoption of the County Dangerous Dog Ordinance. We like to place on a future agenda for formal discussion with my council here. Plus we would need to take action to repeal those section of our code.

Remember my questions were:

Will the sheriff contract need adjustment or amendments to included these naughty type dogs. You thought not.

Will the sheriff contract need adjustment in cost to do this "extra" service. You thought not. On these two items you were going to confirm with the Sheriff.

Effective date I believe you said was planned for March 1, 2010.

Sounds like we still want to go with you to do the enforcement for these dogs. We just simply want to time our actions to coincide with yours to alleviate any overlap.

thanks
